

Estate Gardens by ValleyCrest

Discover the beauty of an Estate Garden by ValleyCrest. Professionally designed, creatively imagined, technically precise, it is a garden like no other. Whether your personal style is classically formal, casually simple or dramatically minimalist, Estate Gardens by ValleyCrest works with you to bring all the elements of custom homes to your outdoor living.

Innovative all-season areas for dining and entertaining . Classic porticoed entrances . Flowing pools and waterfalls . Exotic koi ponds . Romantic pergolas . Decorative trellises . Custom-designed lighting . Natural and cast-stone features . Antique and imported accessories . Sculpted steps and pathways

Teamwork and Collaboration

Planning + Design + Construction + Maintenance

Our goal is simple, to make the process easy for you. We offer you a seamless sequence of professional landscape services, from the first meeting through each consecutive phase of your landscape project: planning, design, construction and long-term maintenance. Work with one company that has nearly sixty years of experience in creating beautiful gardens, eliminating the need to find qualified landscape architects, contractors and gardeners who share a vision. We bring you all the benefits of an integrated and award-winning team.

Working with a single company to complete your garden preserves the integrity of the design and brings all the elements of your landscape plan together as a whole. From an aesthetic standpoint, consideration for the long-term care of the trees and plants from the beginning ensures that the garden retains its scale and character as your grounds mature. No other landscape company offers a holistic approach that integrates design, construction and maintenance.

Innovative Site Planning

Good planning starts with a thorough understanding of your site: the contours, soil composition, erosion potential, water needs and drainage. Sun, shade, rainfall and temperature all contribute to the evolution and long-term success of your landscape. These seasonal elements also play a big part in selecting the specific trees, plants and flowers for your garden.

During the planning phase, we also account for factors like environmental ordinances and local regulations that govern the development of your landscape. With this information in place, we are free to start making the creative decisions and design strategies.

The Design

From beginning to end, our creative process is collaborative. In order to execute your vision within your budget, we pay close attention in order to understand your ideas for layout and composition of the grounds. Our teams work with you alone, or with your architect and interior designer to create a fluid transition from the inside to the outside of your home.

At this stage, we focus on learning and understanding your personal tastes and preferences, for they are the key to creating gardens that exceed your expectations. Final estimates for construction costs are calculated and construction-ready documents are created. Your gardens can now be built.

Bringing Your Design to Life

For nearly sixty years, ValleyCrest has built some of the nation's most beautiful and functional gardens, making us the most accomplished landscape construction company in the U.S. That experience can now transform your home.

With Estate Gardens by ValleyCrest, you can enjoy the confidence of knowing that licensed and professional contractors with stellar reputations for quality are working on your gardens.

Our teams of masons, horticulturists, arborists, carpenters, and irrigation and water-management technicians are trained, certified and skilled with exceptional safety records, proving time and again that they will complete your gardens on schedule, as promised.

Horticultural Expertise: Long-Term Maintenance

Our Estate Gardens maintenance and horticulture teams are the authoritative voice of inspired gardening. Their job is to know and understand trees and plants, their growth patterns and life cycles, to help you care for your garden.

We assign a Lead Gardener to every estate property we tend to provide you with the highest level of personal service. It is their responsibility to ensure that the investment you make in your landscape remains intact, keeping your gardens looking beautiful year after year.
