Features | 3" x 4" Color LCD screen easily visible in overhead console, wide angle camera integrated into tailgate latch, activates when truck is put in reverse, includes weather tight connector for easy tailgate removal

Function | Allows for easier alignment when backing up truck to couple with a trailer, helps identify obstacles behind truck

Benefit | Easier one person alignment of truck and trailer when preparing to tow, nicely integrated into overhead console of truck

UNDERSEAT STORAGE

Features | Molded black plastic construction, fits under rear seat of Double Cab, large divided compartments, easy to install, Double Cab Only

Function | Large storage bin for containing gear in cab, easy to open and access under rear seat

Benefit | Enclosed bin for storing important items out of view

OFF-ROAD
& ADVENTURE

2007 TUNDRA DOUBLE
CAB, SALSA RED PEARL

TUNDRA OFF-ROAD & ADVENTURE

Getting where you need to be with what you need to be there is your truck's job. Part of the support team is the Ready Ramp that gets it on board and the Toyota-tough bed cleats that keep it there.

GENUINE TOYOTA ACCESSORIES

The accessories listed below are designed for the 2007 Tundra and may not be available for all cab, engine, or drivetrain configurations. Please consult your sales associate to ensure compatibility with your vehicle.

FRONT SKID PLATE

Features | 1/8" thick formed aluminum plate, large tow hook access holes, powdercoated aluminum texture finish for long lasting durability, simple installation using existing truck hardware

Function | Added front under-carriage protection, complements truck styling

Benefit | Durable front end protection creates aggressive off-road look

TUBE STEPS

Features | 3" Stainless Steel Tube Construction, available in black powdercoat or rust resistant chrome finish. Dual molded plastic step pads with non-slip tread pattern match the rear bumper, available for Double Cab and CrewMax, custom engineered powder-coated brackets install with no drilling

Function | Provides a skid resistant step for easier entry and exit, creates a rugged off-road look for truck

Benefit | Rugged styling as well as easier entry and exit for the cab of the truck
